To: ITER H.R.
Job Title: Iter
Ref:
France

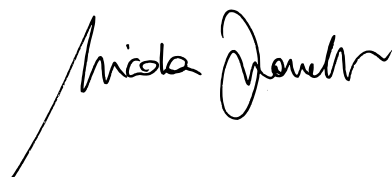

To Whom It May Concern,

my name is Nicola Vianello, I am a 36 years old Phd Physic Scientist, currently working at the RFX-mod experiment. I would like to apply for the aforementioned job position

I've been involved in Fusion plasma Science since my M.Sci. Thesis in Physics 1999. My primary research interests is transport phenomena in fusion oriented plasmas with strong emphasis on non-linear dynamics. I have addressed the problem both experimentally, through the collection, analysis, interpretation and modeling of experimental data, and numerically, through the use of fluid codes.

Thank you for your consideration. I look forward to hearing from you.

Sincerely,

Nicola Vianello
